

Category Interior use only IP20
Material Machined Aluminium & Polycarbonate
Finish Silver | Black | White
System Jack Plug Connector
Compatibility Eutrac | Other Track Systems
Rating 20VA - 50VA | 35VA - 105VA
Ballast Integral
Circuits 3 circuit as standard [1 circuit also available]
Weight Silver | BK | WH - 180g

The Eutrac Adaptor incorporates the jack plug connector to retrofit our luminaires to existing mains voltage track systems. All of our jack plug luminaires are compatible with the Eutrac 3-circuit track adaptor. The adaptor contains a dimmable 20-50VA transformer. Single circuit, Dali, 12V, and 35-105VA versions are also available.

The jack plug system allows the luminaires to be easily removed for cleaning or relamping. The luminaires click into the jack plug socket, the threaded jacket then screws into position to lock the connection in place. Once fixed, the luminaires are free to rotate or alternatively, can be secured in place using two locking pins.
