11 SERIES ACCESSORY HOLDER

16 SERIES ACCESSORY HOLDERS

11 SERIES WALL WASH REFLECTOR

16 SERIES WALL WASH REFLECTOR

There are two accessory holder variants available for the 11 and 16 series snoot range. The double accessory holder fits into all three bayonet snoots and holds up to two lenses or louvres. There is also a double accessory holder with a wall wash reflector for the glare guard snoot. We recommend using a prismatic lens and a narrow beam in conjunction with the wall wash reflector.

### Compatible Luminaires
