### Technical Description

Evo Zoom is a single source LED spotlight that comes as standard in white, black and brushed aluminium finishes. It has a lockable dual lens zoom for flexible beam distribution. The narrow spot beam in our 9W 700lm module has a peak intensity of 11313cd. The Evo has a 360 degree bearing aided rotation and 180 degree constant torque tilt mechanism, both lockable. The Jack Plug system enables the luminaire to be easily disconnected and reconnected to all of Precision Lighting’s systems. The onboard 24V driver ensures overcurrent protection and is not polarity sensitive.
